

Newborn

PHOTOGRAPHY

Hello...

Thank you so much for requesting our Newborn Brochure. Inside this little booklet you'll find everything you need to know about booking a Newborn Session with the Little Cheshire Photography Co.

Photographing babies and little people is our absolute passion and we have been fortunate enough to photograph over 500 of since establishing our little business eight years ago. Stacey has trained all over the world and now trains other photographers in the art of safe and effective newborn posing. She is widely regarded as on of the leading newborn photographers in Cheshire and the UK. You and your baby are in good hands!

We love what we do and hope you do too!

Stacey and Sarah x x

☆ ... and welcome. ☆

WHY HIRE A PROFESSIONAL?

“

Booking STtacey was the best thing we did.
She was so gentle, I wouldn't trust anyone else to handle my baby.
Our images are beautiful, we adore them.

THE HUMPHREYS FAMILY AND BABY OLIVIA

experience

I am one of the most experienced specialist newborn photographers in the NorthWest.

Since establishing my business 8 years ago, I have worked with hundreds of babies.

There isn't anything I haven't seen. Babies are regularly sick (or worse!) on me and we just clean up and move on.

service

I pride myself on giving my clients the best experience I can. Little Cheshire is run by myself and my sister Sarah. We're not a big commercial studio, we're more of a small boutique studio run by two sisters who love what we do.

We are always at the end of the phone and will keep in regular contact with you until baby is here!

safety

In my newborn sessions, safety is everything.

My sessions are completely baby-led which means baby is in charge. If baby doesn't want to pose or curl up in a certain way, I will never force them. I will simply find a different way to capture the same type of shot.

WHY CHOOSE ME?

I have trained all over the world and now train other photographers in the art of safe and effective newborn posing. Your baby couldn't be in safer hands.

Can't anyone take Newborn photographs? Unfortunately, anyone can set themselves up as a newborn photographer! The industry is totally un-regulated which means that new photographers pop up every day. But hand on heart, experience counts for everything. Experience and training can't be under-estimated. Your new baby is the most precious thing in the world and you have to be 1000% confident that the person handling your baby is qualified to do so.

Newborn photography is my passion. My work is unique and special because I have worked so hard at it.

I love what I do and hope you do too x

Full Newborn or Mini?

choosing the right session for you

From March 2019, we will be offering Newborn mini sessions in addition to our regular full newborn sessions. Read on for help deciding which session is right for your family.

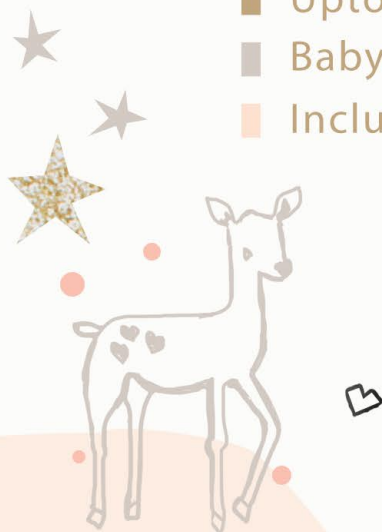

Newborn Mini Sessions

Brand new for 2019! Our newborn mini sessions are perfectly designed for parents who wish to capture a few precious images of their new baby.

The main difference between a mini and a full session is the time spent creating your images. Our Newborn Mini sessions take upto one hour whereas our full sessions can take upto three hours. You can expect to receive a minimum of 5 images in your mini gallery whereas our full newborn galleries include 20+ images and feature a wider variety of 'set-ups' and props.

These sessions are for baby only. In a mini session, baby is firmly in charge. If baby is awake then we will capture some lovely awake shots or if baby is asleep then we will focus on sleepy curled up shots. Either way, we have worked with hundreds of babies and are confident that we can get a lovely gallery for you whether baby is awake, asleep or somewhere in between! Baby will be wrapped for the duration on the session (like all the little babies on this page!)

- Upto one hour duration
- Baby only
- Includes five digital images

Full Newborn Sessions

Full newborn sessions are the perfect choice for families who wish to bring older siblings to their session, have family photographs taken or just want a larger variety of newborn images taken using more props and set-ups.

In a full newborn session we will have lots of time to make sure baby is sleepy, meaning we can focus on capturing those lovely curled up shots whilst your baby is so little.

The session usually takes about 2-3 hours with a lot of that time taken up with settling and soothing them into a deep sleep. I use a very warm room in which to photograph the baby to make sure they are super sleepy and comfortable.

I have a large variety of props, hats and blankets to choose from so there's absolutely no need to bring anything with you.

- 2-3hrs duration
- Baby, Family and Siblings
- Final gallery of around 25 images to choose and order from

★ LOVE NOTES

Over the years I have had the pleasure of working with undreds of precious babies and their families. It gives me great joy to share with you some of the personal notes from Thank You cards and social media reviews I have received over the past few years.

If you are thinking of booking a session, do it! Stacey is a natural with newborns and very talented. She looked after our son throughout the duration of his photoshoot and took some gorgeous photos. She also handled our challenging toddler brilliantly, and ensured he was included in our family photos which is a huge achievement!

The Harrison Family

"Thank you for an amazing experience. You made me feel so comfortable and relaxed and I am sure that is why Molly slept through the whole experience!"

The Short Family

'So in love with my newborn images. I would 100% recommend Stacey'

'You won't find a better photographer. Stacey is brilliant at what she does and just a lovely person'

'Stacey was so gentle and patient with my newborn baby. She really is a baby whisperer'

'I can't recommend Stacey enough, the final images are just gorgeous and great value for such lovely memories'

'Stacey is incredible. Anyone who can get my two year old to cooperate in a photo shoot deserves a medal!'

BOOK IN YOUR BABY

My sessions book up quickly so please get in touch before your due date to book your session. For now, all we need is your due date, we won't set a firm date until baby arrives. I only take a limited number of babies each month so booking in advance is the only way to guarantee I can fit you in within those first few precious weeks.

I am always happy to answer any questions so please get in touch if you think of anything at all. I look forward to meeting you and your new baby!
